EDUCATION

Bachelor's degree in information systems, Helwan University
Studied key Information Systems concepts such as database management, software engineering, systems analysis, and project management. Gained hands-on experience through team-based projects, with a focus on system architecture and mobile app development.

09/2019 – 06/2023
Helwan, Egypt

WORK EXPERIENCE

Mobile Application Developer, SOLID Technologies 
As a Mobile Application Developer, I build innovative digital solutions and mobile apps that drive business growth and support digital transformation

07/2025 – Present
Maadi,Egypt

Mobile Application Developer, TechCastle
Developed scalable mobile apps using Flutter, applying clean architecture principles. Collaborated with designers and backend teams to deliver secure and high-performance features.

09/2024 – 10/2025
Cairo, Egypt

Flutter Developer Intern, Abnuur Software House 
Contributed to small-scale mobile apps using Flutter, with hands-on experience in Firebase integration, state management (Cubit/BLoC), and Google Maps APIs.

02/2023 – 03/2023
Cairo, Egypt

RIVERPOD

PROJECTS

BusMisr, portfolio 
Built a live intercity bus booking app with real-time location features using Flutter and Google Maps API. Ensured smooth performance and scalability through BLoC and clean architecture.

09/2024 – 06/2025

Muasieati Aljamieih, portfolio 
Enhanced and maintained the "Mosaeaty Aljamieih" mobile app by adding new features, fixing bugs, and improving overall performance. Used Flutter and BLoC to ensure scalability and a smooth user experience.

11/2023 – 05/2024

Fawri Al Malik, Demo 
Built a mobile CRM app for Fawry agents, enabling secure client tracking and smoother service handling using Flutter and Firebase.

12/2023 – 04/2024

MAWAHEB, Google play 
Developed and maintained the MAWAHEB mobile app from the ground up, handling the full development cycle. Implemented new features, improved performance, and ensured a smooth user experience using Flutter and Firebase.

06/2023 – 09/2023

Graduation Project, Demo

10/2022 – 06/2023

Designed and developed the mobile front-end of a graduation project app aimed at facilitating medical equipment donations. Focused on creating a clean and user-friendly UI using Flutter

ORGANIZATIONS

Online- student activity, Head Flutter Mentor

08/2022 – 06/2023

Led a Flutter learning group for junior developers, providing technical guidance, code reviews, and hands-on support to help them build real-world apps

Helwan, Egypt

ACHIEVEMENTS

Hackathon development, Certification

06/2022 – 06/2022

Worked in a team to develop a mobile solution addressing traffic congestion in urban areas. Contributed to app design, feature planning, and Flutter development.

Giza, Egypt

Orange Digital Center, Flutter Hackathon

08/2021 – 08/2021

During that hackathon, I developed a la ve application to provide different care methods for plants, and I developed my skills in developing mobile applications using flutter.

Giza, Egypt
